

BALAJI CHITRARASU

B.E. ECE (2027) | AWS Cloud, Full-Stack & Embedded Systems | Entry-Level Engineering Roles

Coimbatore, Tamil Nadu, India | +91-7639683223 | balajichitrarasu07@gmail.com
[balajichitrarasu.github.io](https://github.com/balajichitrarasu) | linkedin.com/in/balajichitrarasu | github.com/balajichitrarasu

PROFESSIONAL SUMMARY

ECE undergraduate who has actually deployed AWS infrastructure, not just studied it. During a hands-on internship, built and hosted a full production application on AWS from the ground up. Comfortable across cloud platforms, full-stack development, and embedded hardware, and picks up new tools quickly when a project calls for it. Looking for an entry-level engineering role where I can keep building real things and learn from an experienced team.

CORE COMPETENCIES

Cloud Computing | Cloud Infrastructure | Full-Stack Development | Embedded Systems & IoT | Network Architecture | Database Management | Data Structures | API Testing & Debugging | Problem Solving | Independent Project Delivery

TECHNICAL SKILLS

Cloud Platforms: AWS (EC2, S3, CloudFront, IAM, RDS, VPC, CloudWatch, AWS CLI)
Networking: VPC Architecture, Subnets, Route Tables, Security Groups, NAT Gateway
Programming: Python, C, Java, JavaScript
Web Development: HTML5, CSS3, REST APIs
Databases: MySQL, Amazon RDS, SQL
Development Tools: Git, GitHub, Postman, Linux (Bash)
Operating Systems: Linux, Windows

INTERNSHIP EXPERIENCE

AWS Cloud Engineer Intern — June 2026 - July 2026

ZenFuture Technologies | Coimbatore, India | Certificate No. ZF-INTERN-0026

- Deployed ZentroShift, a full-stack ERM app, across 6 AWS services (EC2, S3, CloudFront, RDS, VPC, CloudWatch) during a one-month internship.
- Built a custom VPC from scratch, including a public subnet, Internet Gateway, NAT Gateway, and security group rules.
- Configured IAM users across 4 role-based access levels (Admin, Developer, Read-only, Client) and set up CloudWatch alarms to monitor server health.
- Tested API endpoints in Postman and shipped 2 live features — a location-based clock-in system and an admin panel.

PROFESSIONAL EXPERIENCE

Freelance IT Support & Digital Designer — 2023 - Present

Self-Employed | Coimbatore, India

- Delivered digital design work (posters, infographics, social media content) for small business clients using Canva and web-based tools.
- Provided basic technical support, including hardware troubleshooting and software setup, managing each project independently from client request to delivery.

PROJECTS

3 independently designed and deployed projects spanning cloud infrastructure, embedded IoT, and full-stack web development

ZentroShift - Employee Resource Management on AWS — 2026

AWS EC2, S3, CloudFront, RDS, VPC, CloudWatch

- Built a full-stack ERM system and deployed it on AWS, with attendance tracking and role-based access control.

Personal Portfolio Website — 2023 - Present

HTML5, CSS3, JavaScript, GitHub Pages

- Built and deployed a responsive portfolio with full SEO implementation (sitemap, structured data, meta tags).

Smart Solar-Powered Pedestrian Crossing System — 2026

Arduino, IR Sensor, LDR, Solar Panel, Boost Converter, Battery, Buzzer, LEDs

- Built a solar-powered zebra crossing alert system — IR sensors detect pedestrians and trigger a buzzer and LED warning, with a boost converter managing the battery charge from the solar panel.

EDUCATION

Bachelor of Engineering, Electronics and Communication Engineering — 2023 - 2027

United Institute of Technology, Coimbatore

Relevant Coursework: Data Structures, Embedded Systems, Signal Processing, Computer Networks

CGPA: 7.13 / 10

Higher Secondary Certificate (Class XII) — 2023

Govt. Hr. Sec. School, Hale Dharmapuri, Dharmapuri | Tamil Nadu State Board

Secondary School Leaving Certificate (Class X) — 2021

Govt. Hr. Sec. School, Hale Dharmapuri, Dharmapuri | Tamil Nadu State Board | Passed

CERTIFICATIONS

- AWS Cloud Engineer Internship - ZenFuture Technologies, Certificate No. ZF-INTERN-0026, 2026
- Industry 4.0 and Industrial IoT - NPTEL, 2024
- Software Engineer Certificate - HackerRank, 2024
- AI Fluency: Framework and Foundations - Anthropic, 2025

ACHIEVEMENTS

- Exemplary Achiever Award, United Institute of Technology
- Deployed a real, production AWS setup across 6 services (EC2, S3, CloudFront, RDS, VPC, CloudWatch) during the internship — not a simulation or tutorial project

POSITIONS OF RESPONSIBILITY

- IIC Innovation Ambassador, Ministry of Education Innovation and Incubation Centre

SOFT SKILLS

Problem Solving, Communication, Team Collaboration, Adaptability, Time Management, Self-Directed Learning

LANGUAGES

English (Professional Proficiency), Tamil (Native)
